To: **The Commission**

**PETITION FOR RECONSIDERATION OR CLARIFICATION**

Classic Communications, Inc. ("Classic"), by its attorney, hereby requests reconsideration or clarification of the *Memorandum Opinion and Order*, FCC 05-64 (March 14, 2005), issued in this proceeding. With respect thereto, the following is stated:

Classic is licensee of Station KWFX(FM), Woodward, Oklahoma. KWFX(FM) currently is licensed as a Class A facility on Channel 228A. In 1990, upon request, the FM Table of Allotments was modified to allow Station KWFX to upgrade its operation to Channel 261C1. Woodward, OK, 5 FCC Rcd 6628 (Policy & Rules Div. 1990). An application for issuance of a construction permit was filed to effectuate the upgrade. File No. BPH-199112011E. Prior to such time as the upgrade could be constructed, the FCC issued a *Notice of Proposed Rule Making and Order to Show Cause*, 13 FCC Rcd 25352 (Chief, Allocations Branch 1998), whereby it was proposed that in order to accommodate the reallocation of Channel 259C3 from Tishomingo to Tuttle, Oklahoma, that Channel 292C1 be substituted for Channel 261C1. The proposal was opposed, in part, by Chisholm Trail Broadcasting Co., Inc., but was eventually adopted by *Memorandum Opinion and Order*, 17 FCC Rcd 14722 (Assistant Chief, Audio

No. of Copies rec'd  
List ABCDE

074

Division 2002), whereby the FM Table of Allotments was amended, and Classic was directed to amend its then-pending application for issuance of a construction permit (File No. BPH-19970811IC) for Station KWFX(FM) to specify Channel 292C1. That permit was granted on May 22, 2003.

The Table of Allotments currently reflects Channel 292C1 (in lieu of Channel 261C1) as allotted to Woodward. However, by *Memorandum Opinion and Order*, FCC 05-64 (2005), the Commission granted Chisholm Trail's Application for Review of the decision, whereby Channel 259C3 no longer is being reallocated from Tishomingo to Tuttle. Nevertheless, in the course of that *MO&O* there was no mention about the what resulting changes would occur to the FM Table of Allotmentment with respect to either Channel 260C1, Alva, Oklahoma, or Channel 292C1, Woodward, Oklahoma. In the case of Station KXLS, Alva, Oklahoma, the Commission had ordered a change in channels from Channel 259C1 to Channel 260C1 to accommodate the Tishomingo/Tuttle move; and again, in the case of Station KWFX(FM), the Commission had ordered a change in allotments from Channel 261C1 to Channel 292C1 to accomodate the Tishomingo/Tuttle move.

Both the Alva and the Woodward changes were ordered only to accommodate the Tishomingo/Tuttle move which, by virtue of the recent *MO&O*, no longer is occurring. Therefore, both changes to the FM Table of Allotment should be reversed and undone, and the FM Table of Allotments should be restored to reflect the following:

Alva, Oklahoma	248C2, 259C1, 289C2, 296C3
Woodward, Oklahoma	221C3, 240A, 261C1, 266C, 272A

**WHEREFORE**, Classic Communications, Inc. respectfully requests that this Petition be granted, and that the FM Table of Allotments be amended, as specified above.

Respectfully submitted,

**CLASSIC COMMUNICATIONS, INC.**
